

## Environmental Policy – Statement of Intent

REMONDIS act as environmental partners for our customers providing a waste management service that complies with their business and legislative requirements as well as ensuring we meet all our legislative requirements. Our continuous improvement philosophy ensures that our service is dedicated to meeting current customer requirements and considers their future needs.

REMONDIS are committed to:

- Recycling as much waste as we can cost effectively.
- Reducing the amount of waste sent to landfill.
- Operating a management system across all business functions that conform to the requirements of ISO 14001 and to attaining the highest possible standards of Environmental, Health and Safety and Quality performance.
- Complying with the spirit as well as the letter of environmental legislation and Codes of Practice whilst maintaining open communication with all regulatory authorities.
- Assessing the environmental effects of its policies and operations with the objective of preventing pollution, reducing environmental impact and where possible providing environmental benefits.
- Setting environmental objectives and targets.
- Seeking to influence customers and suppliers of materials and services to adopt policies that are consistent with those of the Company.
- Continually evaluating our suppliers' environmental policies and performance.
- Conserving resources and promoting waste minimisation as well as recovery of energy and recycling of materials where appropriate.
- Evaluating new techniques that will provide benefit to the environment.
- Educating and motivating our workforce to minimize environmental impacts of daily work.

Our Environmental Policy is continually monitored and reviewed to ensure that it meets the environmental objectives and targets of REMONDIS and remains relevant and effective to the changing needs of our business, customers and legislation.
